BEng (Hons) Engineering with Business

Percentage of leavers in known destinations (2009)

Examples of employment obtained by leavers (2009)

Job title	Employer
Junior Project Manager	BWH Water
Process Leader	RWE NPower
Engineer	Nadan Edwards
Designer	Force India
Trainer	Apple Inc.
Customer Account Manager	Pratt and Whitney Canada
Design Engineer	Stannah Stairlifts

Knowledge and skills

Graduates have a broad understanding of engineering, including mechanical and electronic, relevant practical and technical expertise and supporting business knowledge. They have skills in mathematics, communication, use of I.T., logical thinking, problem solving, decision-making and working individually and in a team. This combination gives a wider appreciation of issues encountered in industry and commerce in addition to engineering skills and knowledge.

Professional accreditation

The course is accredited by the Institution of Engineering and Technology supporting progression to registration as an incorporated or chartered engineer.

Career opportunities

Employment opportunities include design and development and manufacturing in a range of industries and management. Self-employment is a further option and schemes offering advice and financial help in setting up a business are usually available.

The transferable skills developed are valued by virtually all employers and can be used in many other types of employment including, business, finance, local and central government, health, education, defence, transport and retailing.
