

Personal Projects

Sledgehammer

I created a sledgehammer after being inspired from Call of Duty Black Ops Cold War. I wanted to create this because I felt like it could be a small but strong piece for my portfolio.

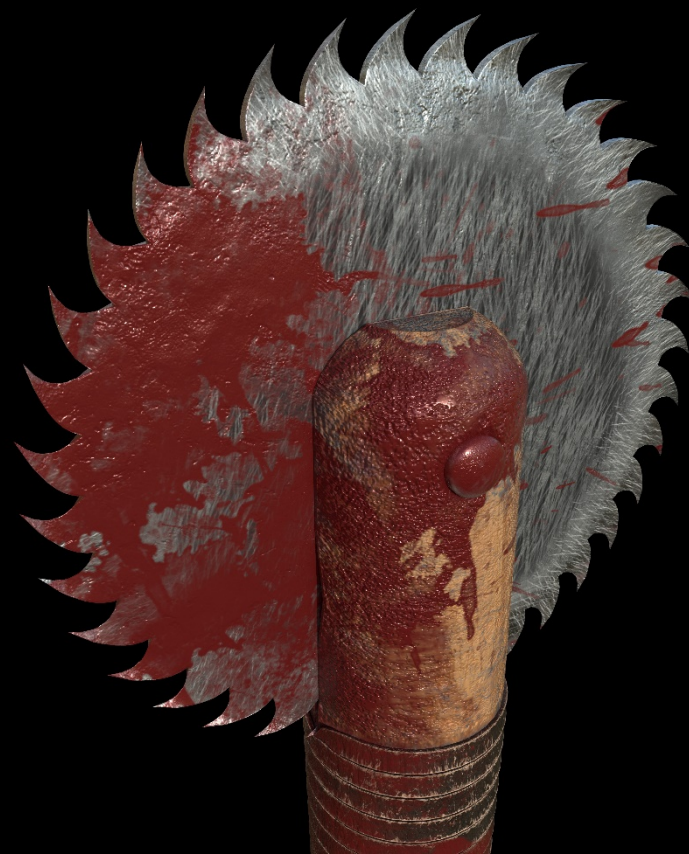

Sawblade Baseball Bat

I wanted to create this Sawblade Baseball Bat because after creating the sledgehammer I wanted to create another weapon which gave the same effect which the sledgehammer did. I was also inspired by the modded weapons on the Dead Island games.

Alien Inspired Hallway

Due to being a massive fan of the Alien franchise, I wanted to create this hallway inspired by it. I also felt that this piece would test my abilities and allow me to improve upon the skills I have.
