VISIONAIRE MAKE-UP ARTISTRY

THE APPROACH OF AUTUMN

Autumn has gradually approached us, as the seasons change the colour palette transforms inspiring us to produce artistic creations enthused by the world around us. The palette changes from the bright array of colour to a muted tone highlighted with shades of jade greens and deep reds, the influence of colour inspired by the seasons can inspire us to produce such unique and versatile looks. Selecting a concept as simple as a season can expand your ideas to developing an entire collection. Expanding the design further incorporating texture will add dimension to the tone of the image.
