# Working Life

## **Logline:**

Lauren, a hardworking woman, struggles to keep her work-life balance due to her toxic co-workers who manipulate her into doing their work. She also has to deal with her “best friend” who only talks about her perfect life.

## **The idea about the short film working life:**

We wanted to create a short film that shows, that being bold and letting go of certain situations, people or places who bring you down can result in finding happiness.
