BA (Hons) Illustration 2021

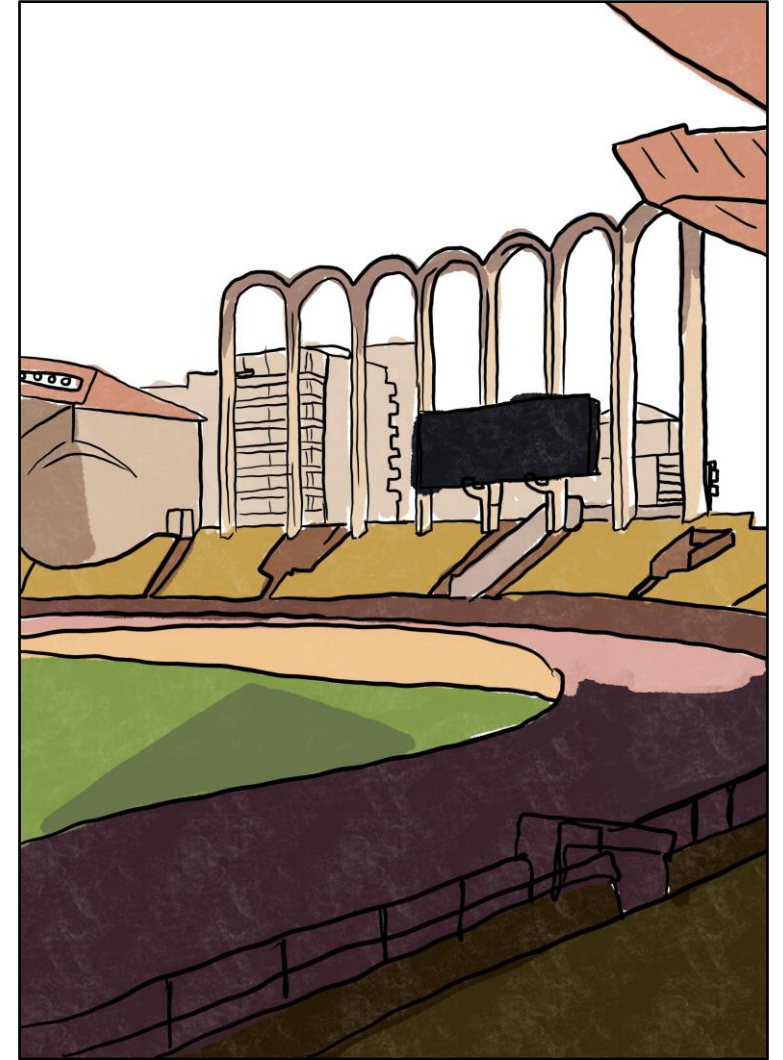

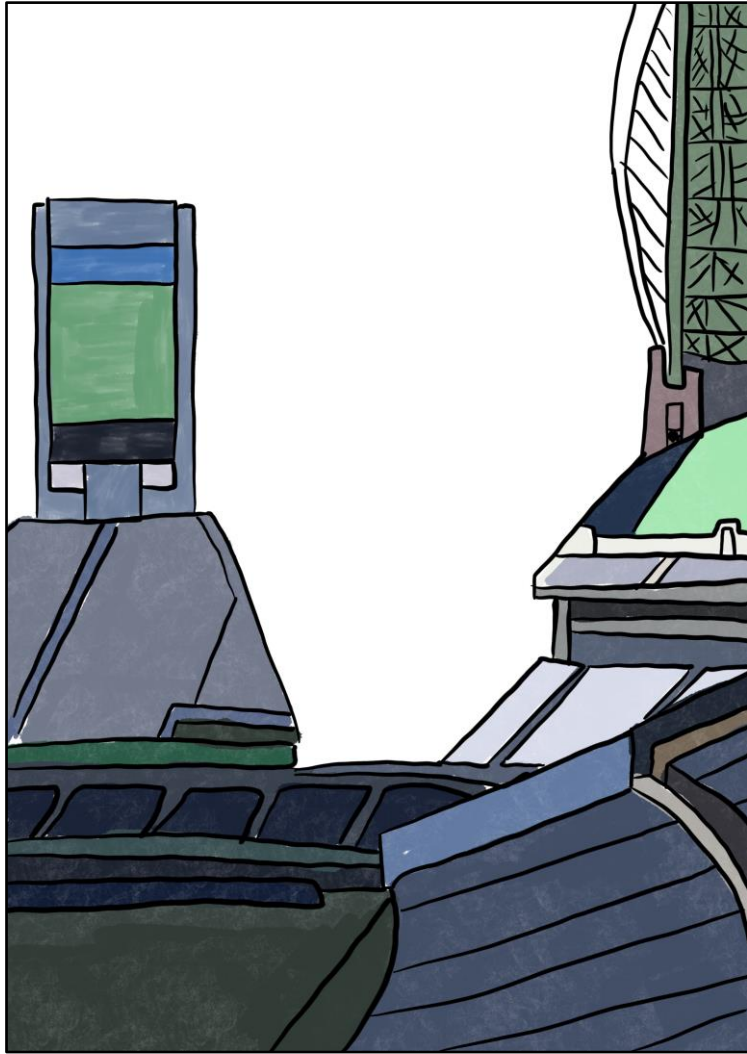

-
- My project is based around my love of football. My Ultimate 'goal' was to create not just a book that football fans would enjoy but for a range of people. I also wanted to show that football isn't just a game of kicking a ball around. I wanted to show this through some facts, showing the diversity of football. Finding facts that even the most ardent fan may not know

- I love to create football images in my free time so it was great to get to make my final piece around this love. It was enjoyable from start to end and I wanted to show some of my favourite illustrations before the book

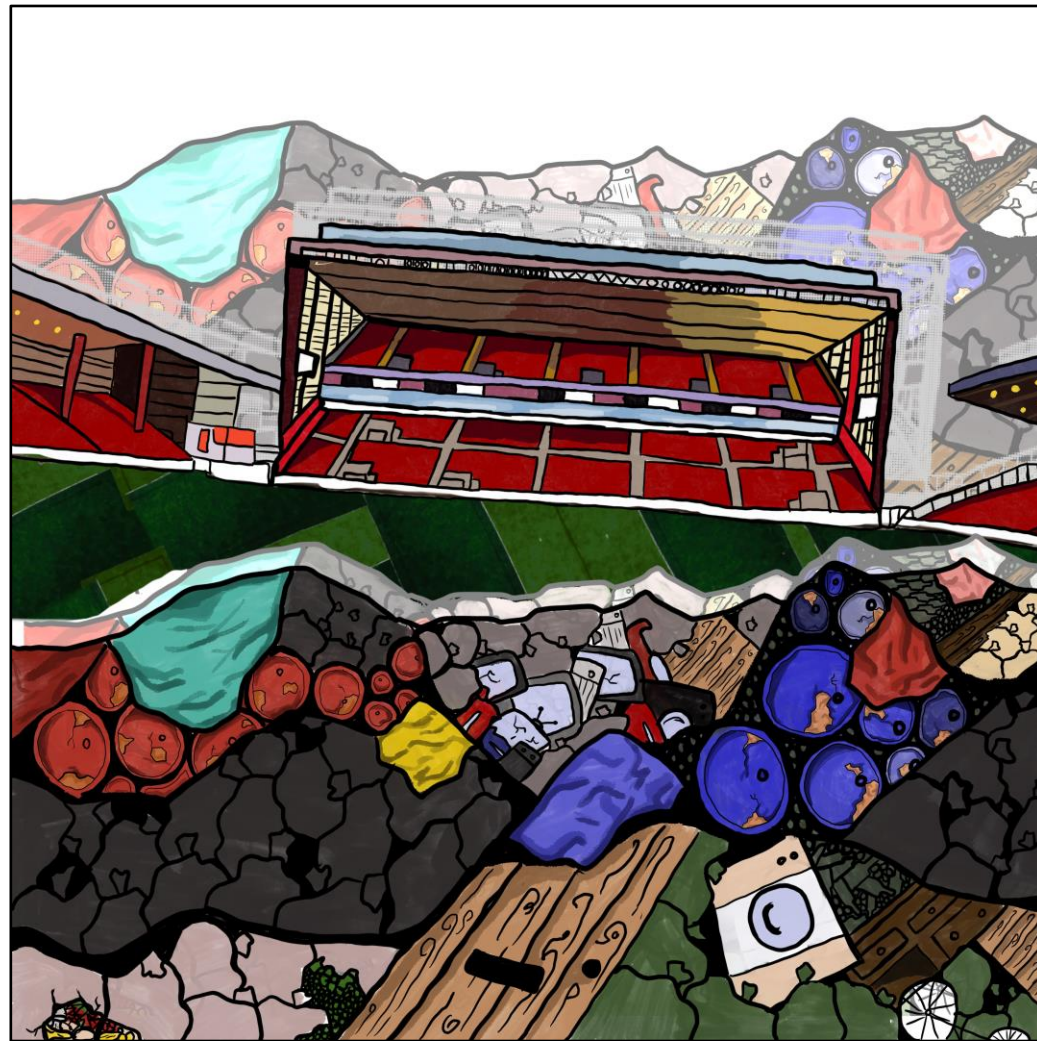

- Some stadium illustrations

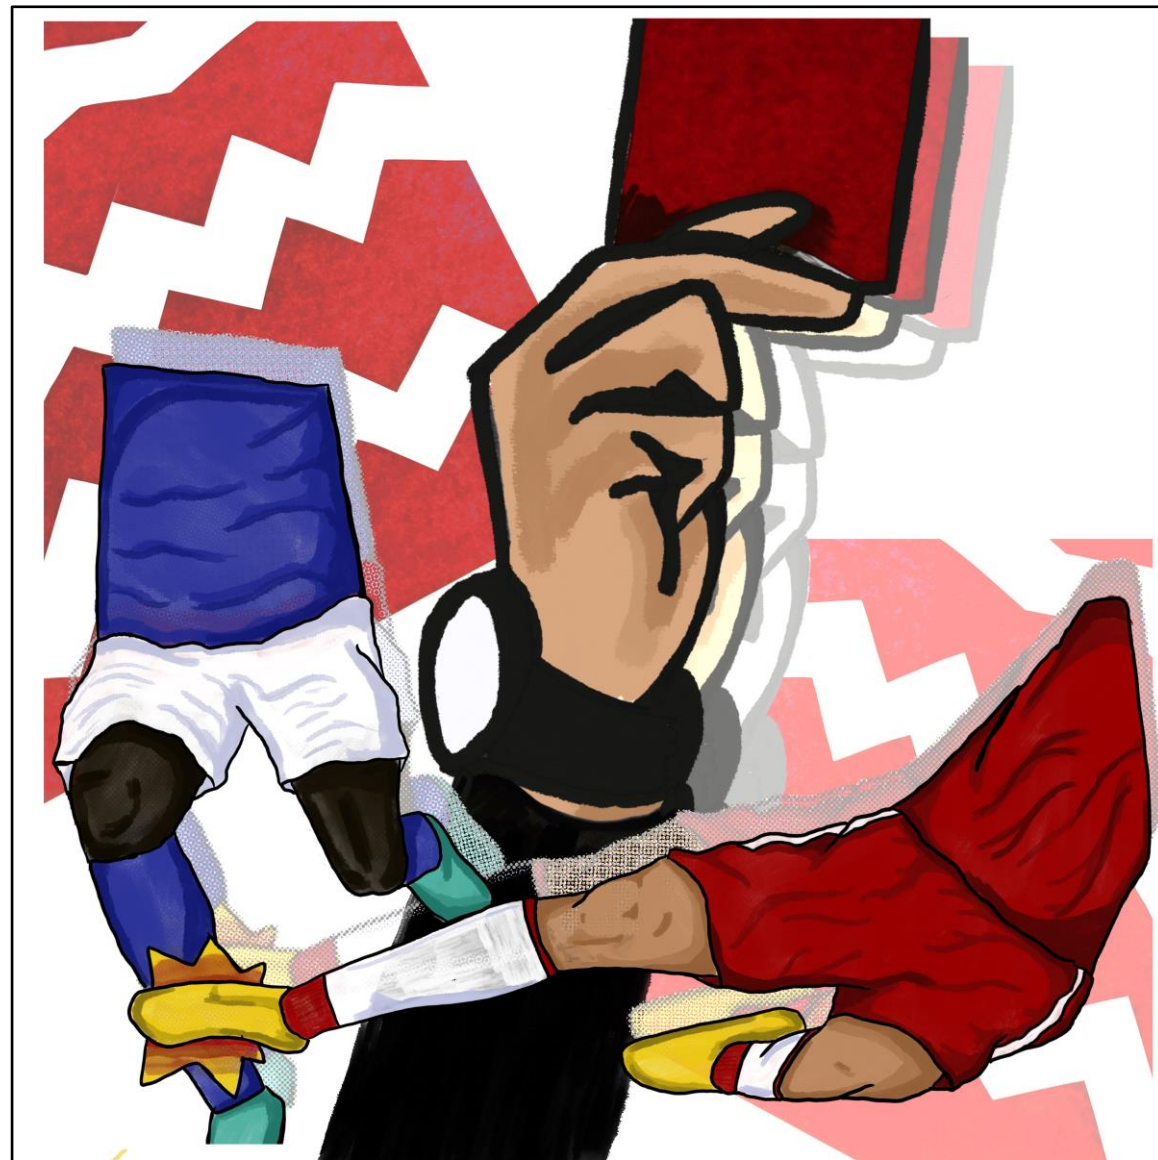

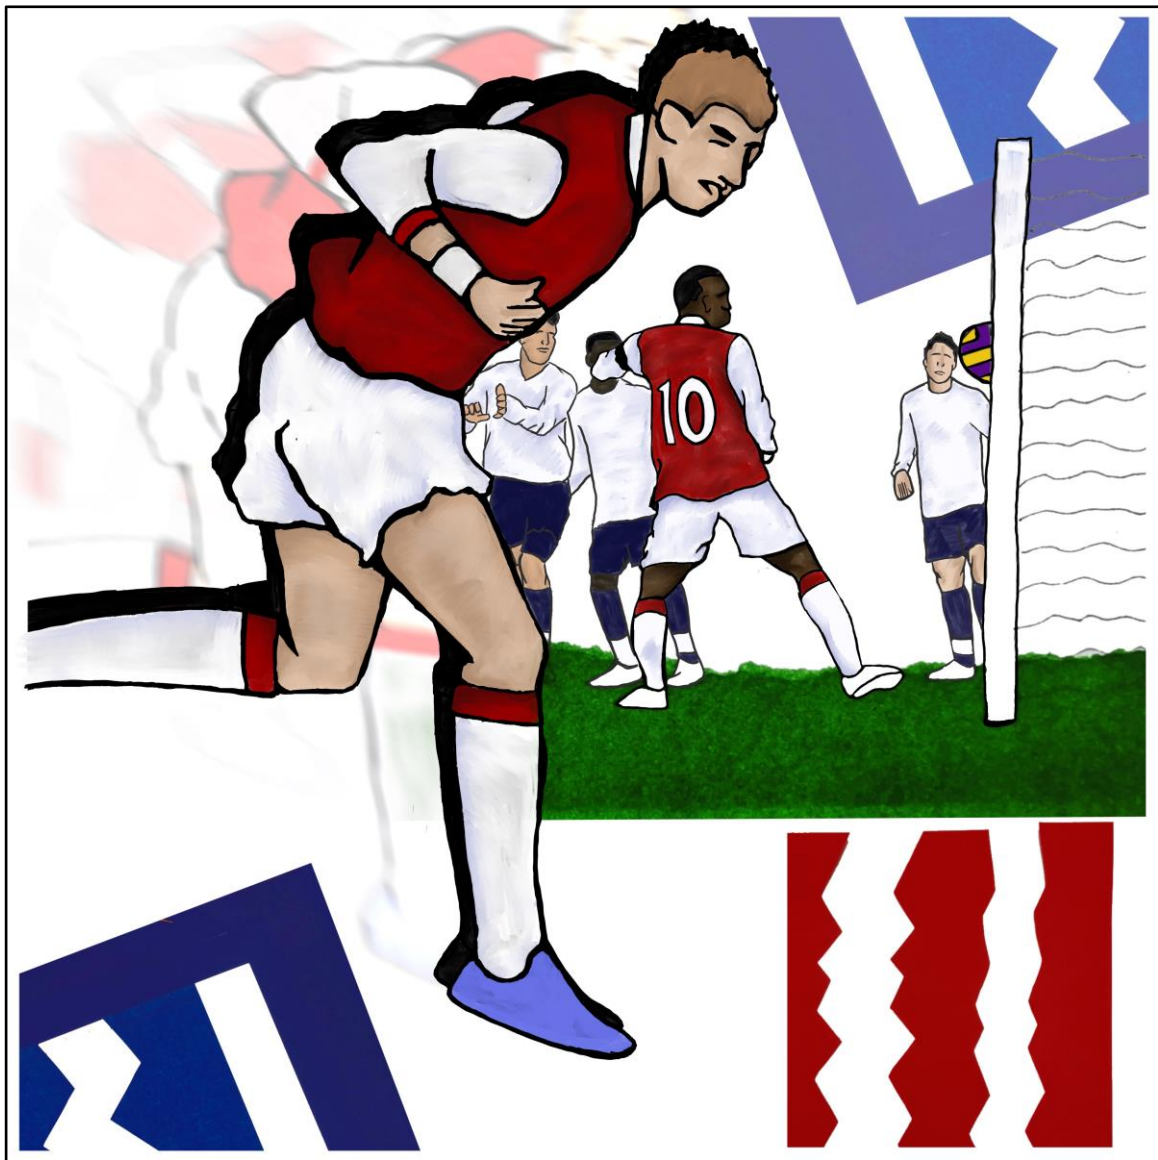

Images from the book

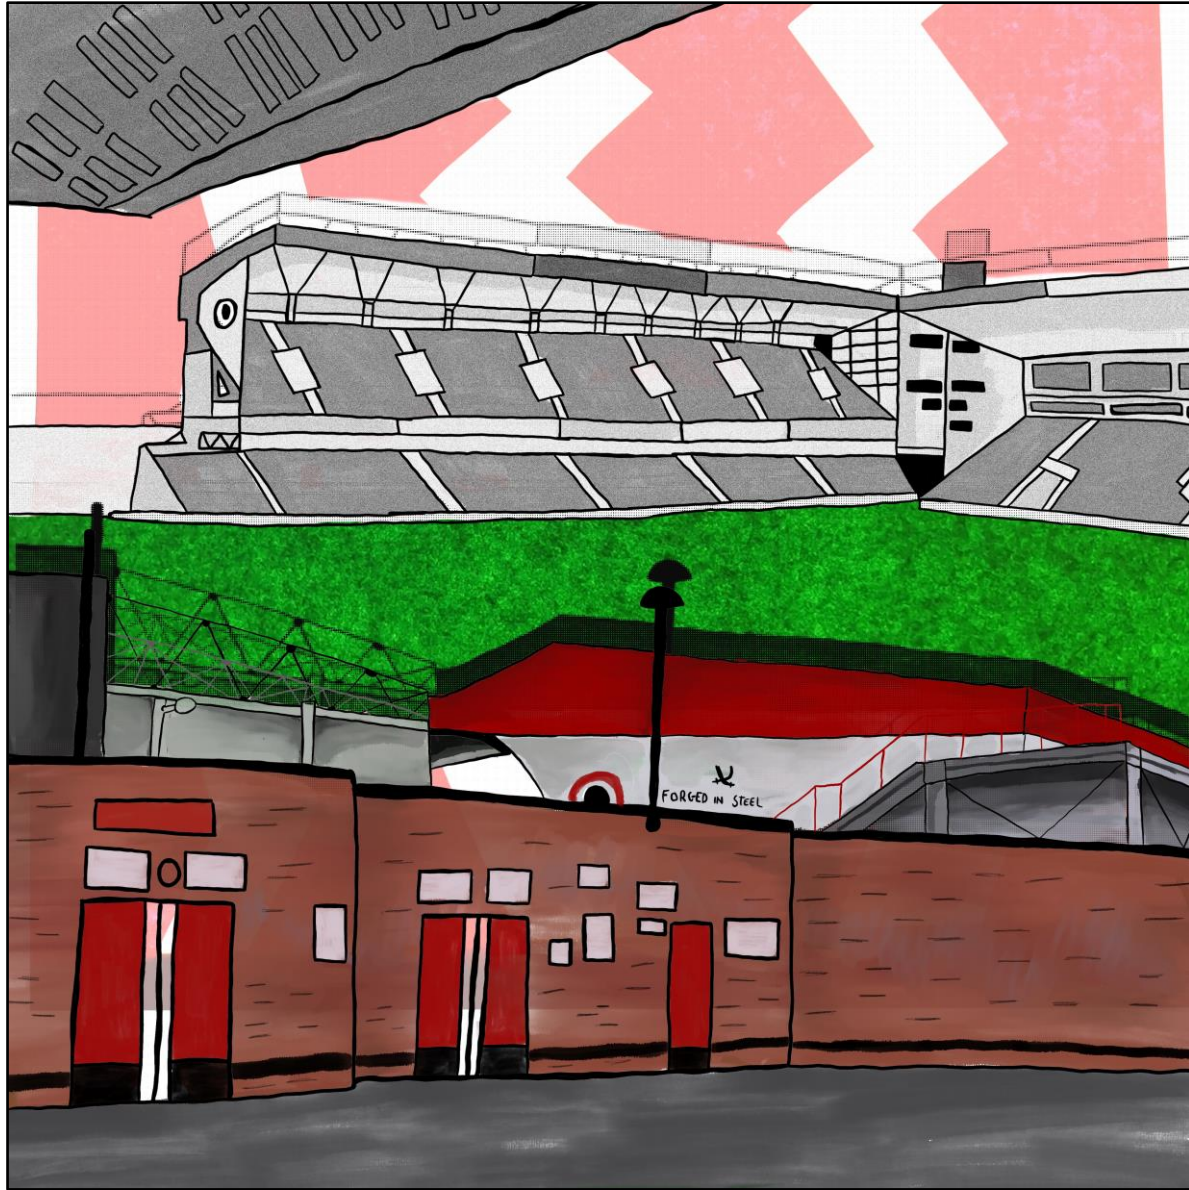

Facts are as follows

- 1932 was the first year to use shirt numbers
- Pittodrie stadium translates to shitheap in gaelic
- Gordon Ramsey played for Rangers academy
- The most own goals in football history is 142
