

Leon K. Moi Mathisen

Digital Portfolio

BA (Hons) Illustration 2021

For my FMP I Illustrated 7 images for HEVN, A local store in Oslo.

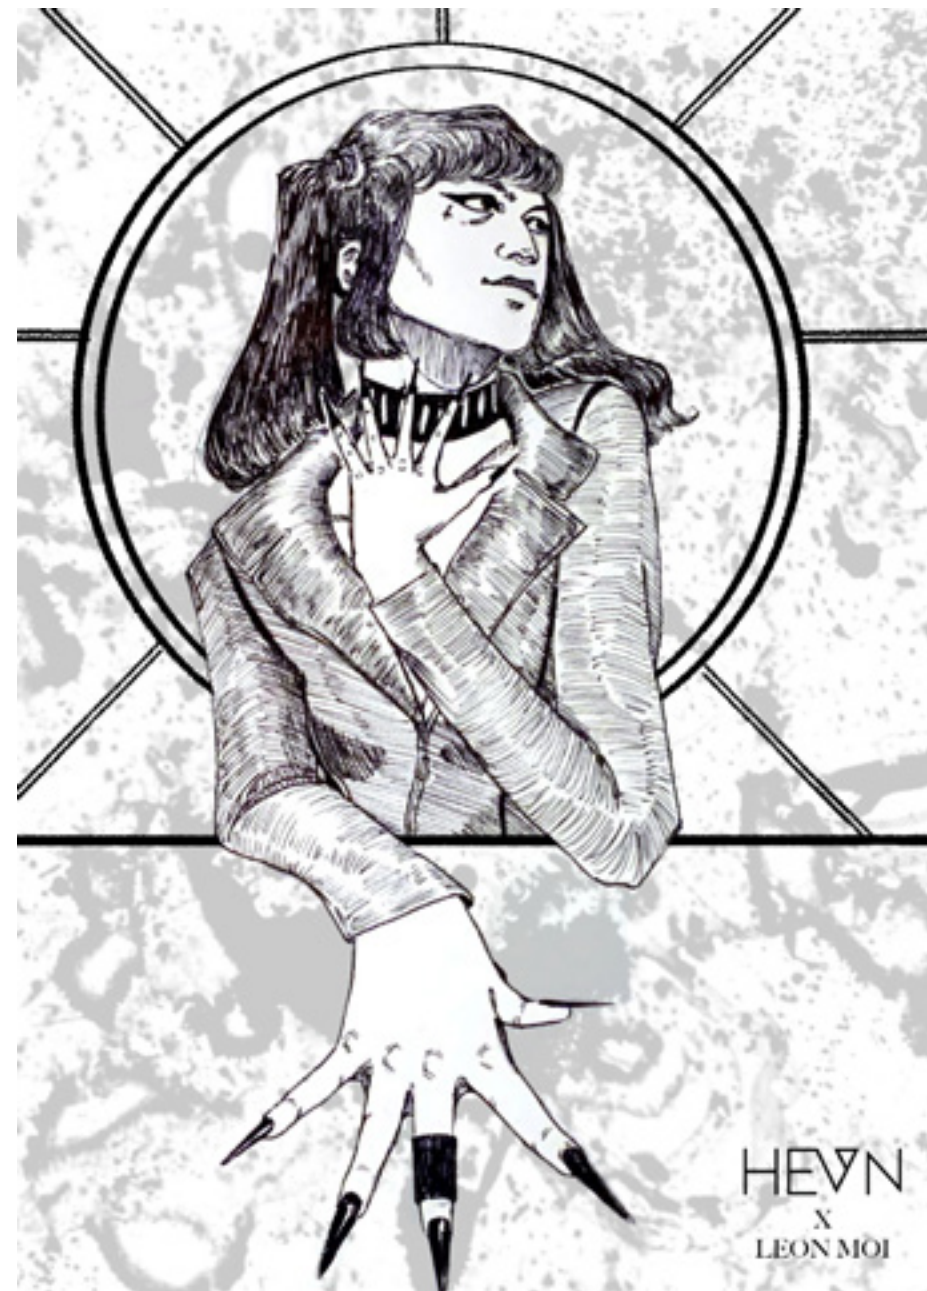

The store focuses on black avant-garde pieces from designers all over the world. Every piece is curated by them.

The objective of my FMP is to create promotional items such as Window displays, Tissue wrapping paper, Postcards and even billboards.

I created my illustrations with the intention of making them look like fotoshoots. I drew heavy inspiration from manga artists such as Hirohiko Araki, who also illustrates people in fashion designers clothes.

Every Illustration is created using ink techniques such as crosshatching.
