The Impact Volunteers

Can you design an eye-catching report to make our results accessible?

Can you help with a media campaign to communicate the outcomes of the Challenge to Southampton?

Can you see a simple message in a complex idea?

Can you identify a project that has an impact on Southampton beyond 2015/16?

Can you identify a project that could influence government policy in the future?

Then we need you to help the principal investigator tell the story of the Challenge to Southampton and into the future.
