

CONTEXTUAL OFFERS AT SOLENT

As a friendly, community driven University, we want to ensure high-quality education is inclusive and accessible to all students regardless of their background and experience. Our contextual offers support this, by offering students the chance to attend higher education who may not meet the traditional eligibility criteria.

WHAT IS A CONTEXTUAL OFFER?

When our admissions team reviews your UCAS application, additional contextual information and data will be used to help us make an overall assessment of your achievements and your potential to succeed on a Solent degree course. If you meet one or more of the eligibility criteria, you'll be made an offer lower than our standard required tariff.

WHAT ARE CONTEXTUAL INFORMATION AND DATA?

Contextual information considers your individual circumstances such as being a young carer or having a disability, while contextual data considers your socio-economic background such as the area where you live or the school you attended.
